To Whom it may concern:

I highly recommend the General Contracting Services provided by Slate Construction LLC. Our firm has contracted with Slate on multiple projects of varied sizes and scopes. Slate Construction consistently provides expertise in all aspects of the project; from pre-construction, design-build, construction and completion; never failing to fulfill our requests. The team was readily available and acted without hesitation throughout the jobs.

Slate Construction has consistently exhibited integrity and attention to detail in the process of serving our needs. Slate Construction maintains strong relationships within the industry which makes the construction process a “team” effort. Slate’s experience and cost awareness ensures we obtain the best value.

I recommend Slate Construction to any organization searching for a professional General Contracting firm, as their experience, customer focus and dedication sets them apart from others in their industry. Please feel free to call me at 713-360-7929 if you’d like to further discuss our experience.

Sincerely,

Daniel G. Zoch
Managing Director
