RE: Contractor's Professional Reference - Slate Construction

To Whom It May Concern,

Seeberger Architecture has had the recent pleasure of working with Slate Construction.

We would especially like to commend Slate Construction on our most recently completed project, North Bayport II Distribution Center. The project offered many challenges to the entire team and Slate successfully delivered. The level of commitment, collaboration and problem solving skills exhibited by the Construction Team made it a pleasurable working experience. Slate Construction President, Christian Brown was on top of critical issues and minimized the effects of the record amounts of rain that occurred early on in the project schedule.

We valued Christian's professionalism and look forward to working with Slate Construction in the future.

Sincerely,

SEEBERGER ARCHITECTURE

A handwritten signature in blue ink, reading "Perry E. Seeberger". The signature is fluid and cursive, with the first name "Perry" and last name "Seeberger" clearly legible.

Perry E. Seeberger, AIA, LEED AP
